

# Advanced Care To Your Home

Our care allows you to:

- Remain at home
- Avoid costly hospitalizations and emergency room visits
- Stay healthy before a condition or situation worsens

We may help if you:

- Were recently discharged from the hospital
- Are home bound due to a medical condition
- Have a difficult time getting to physician office visits
- Had a major surgery and need post-surgical care at home

## OUR MISSION

We aim to improve the physical, emotional and mental wellness, and quality of life of our patients by providing quality in-home care and services tailored to the individual needs of each patient.

## Our Services

- Care management for high risk patients
- Preventive care including health assessments, immunizations, and functional assessments
- Sick visits
- Medication management and adherence strategies
- Telehealth visits
- Reduction of emergency department use and hospitalization
- Post-hospitalization discharge follow ups

# Your Ease is Our Focus

Our local doctors and licensed healthcare professionals care for elderly and other adult complex patients who are suffering from illness or chronic condition in home, ensuring safety, privacy, and complete comfort.

We offer services that ease the burden of traveling to an office or hospital, as well as helping our patients' families and caregivers.

We provide **comprehensive** and **compassionate** evidence-based care, incorporating best in class processes, standards, and technology for the patients and care partners that **we serve.**
